

FLEET SOLUTIONS FOR DRIVING SAFETY

Discover how Platform Science's full suite of fleet solutions connects drivers with a safer experience behind the wheel

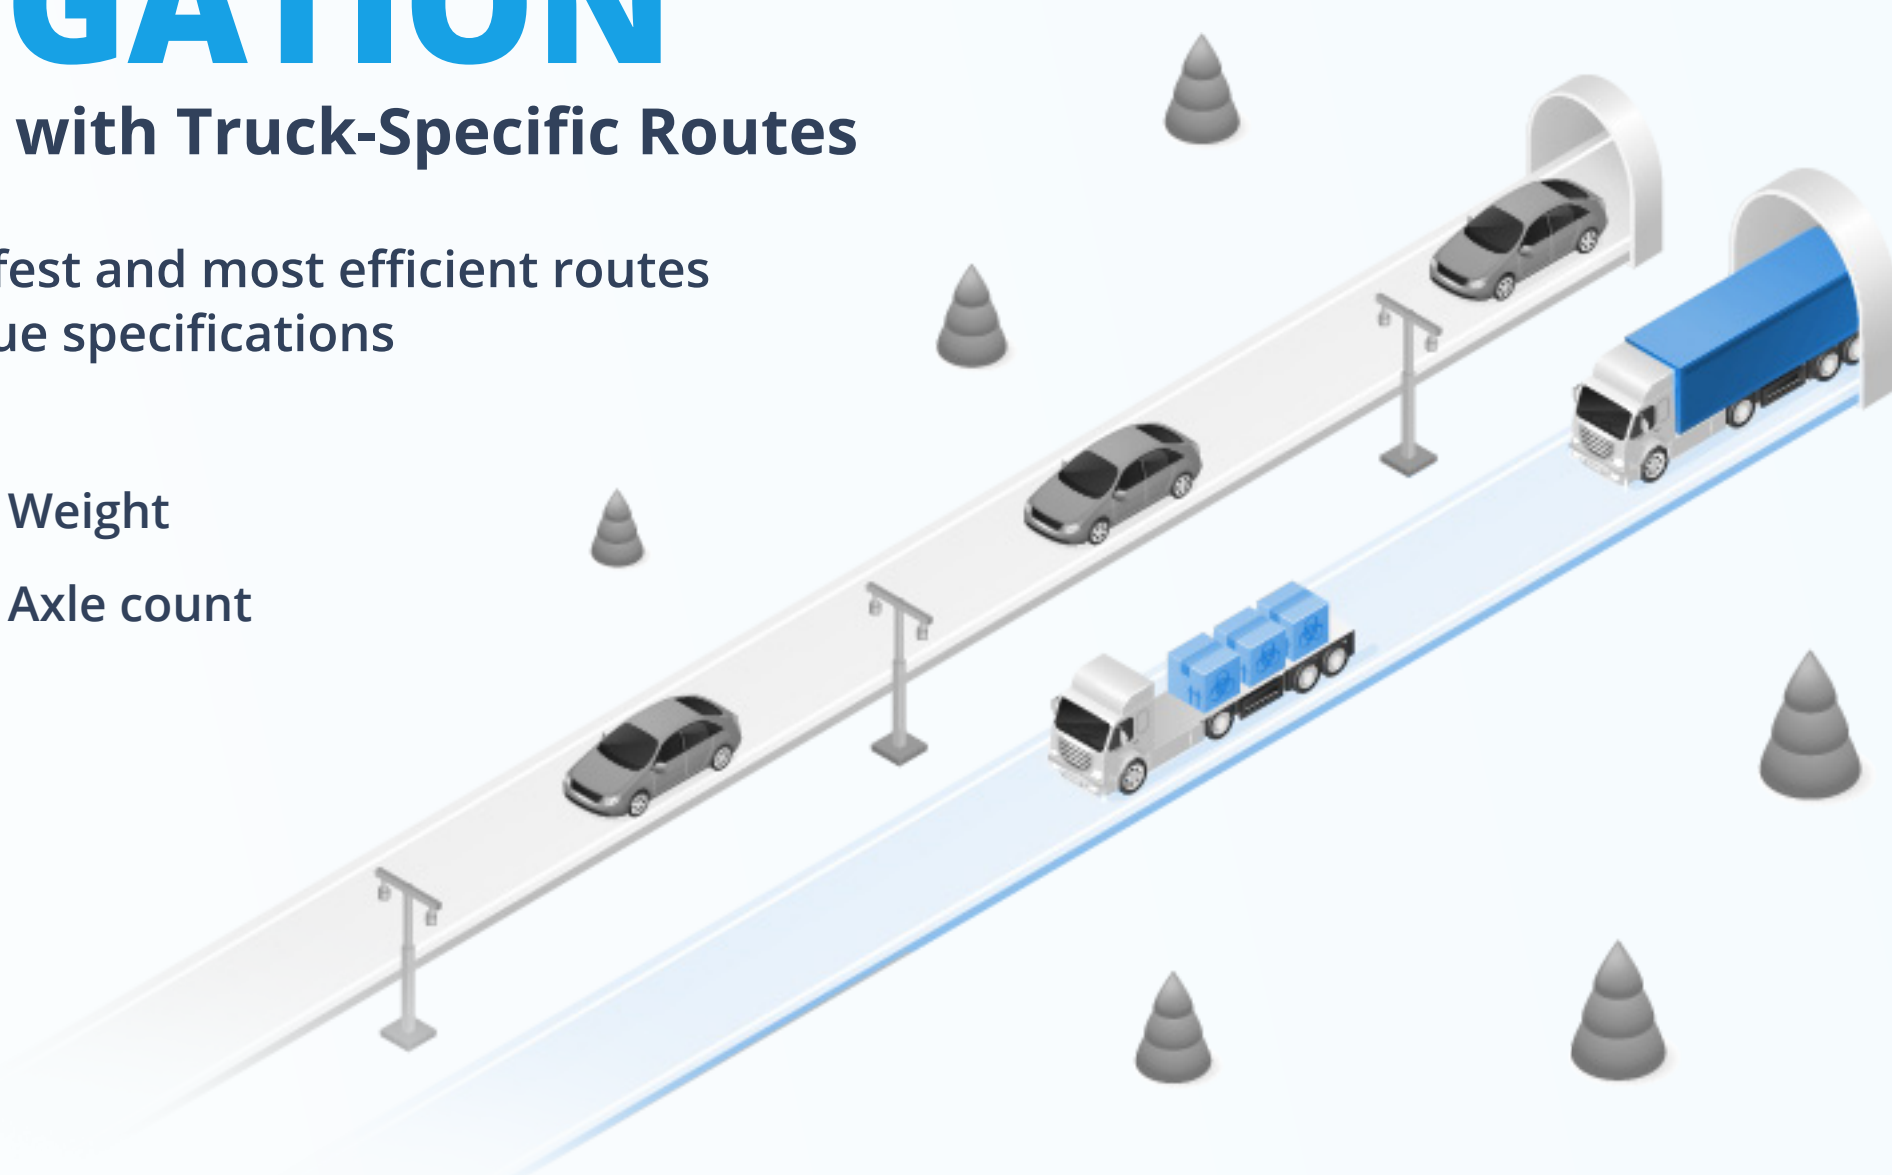

PS NAVIGATION

Stay Safe and Secure with Truck-Specific Routes

Help drivers stay on the safest and most efficient routes based on your trucks' unique specifications

- Height
- Length
- Hazmat hauling
- Weight
- Axle count

PS MESSAGING

Send Urgent Messages Safely Using Audio Playback

Ensure drivers get the right information at the right time by having 'urgent messages' read aloud immediately, 'priority messages' saved for their next stop, or 'normal messages' delivered whenever they're not on the road

- 1:1 messages
- Fleetwide messages
- Group messages
- Urgent messages

PS FORM MESSAGES

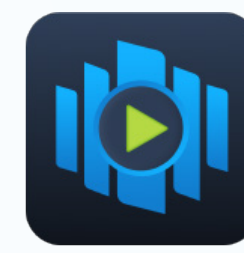

Improve Communication for Emergency Assistance

Strengthen the connection between your dispatch and drivers with form messages that are easy to fill out and effective for emergency communications

- Request emergency maintenance
- Request roadside assistance
- Report emergency

PS MEDIA MANAGER

Simplify access to important information with PS Media Manager

Give drivers all the information they need to stay safe and compliant by sending important documents right to their tablets

- Cab card
- Fueling instructions
- Yard layout
- Securing instructions for flatbed cargo

WHEELS IN MOTION SCREEN

Reduce Driver Distractions with Wheels in Motion

Connect drivers with a safer in-cab experience using PS Wheels in Motion, which locks their tablets as soon as their trucks start moving and displays only the information they need—like Hours of Service timers, navigation, and urgent notifications—on their screens until their next stop

- Hours of Service timers
- Urgent notifications
- Navigation
